PROPRIETARY NOTICE

This book contains designs, specifications, data, information, and technical material that are the sole property of AMSAFE Aviation, Inc. and are to be held and treated by its recipient on a confidential basis, and not to be shown, disclosed, reproduced or manufactured without the express written permission of AMSAFE Aviation, Inc.

SPECIAL WEBBING COLOR NOTICE

Web samples in this book were cut from actual production webbing lots in our temperature-and-light-controlled warehouse, at the time the webbing book was compiled. Webbing sample colors can change due to exposure to ultraviolet light, human handling and certain environmental factors. For these reasons, webbing colors can deviate slightly between lots, based on standard accepted variance in shading. Therefore it is possible that there may be a slight difference in shade between the samples in this book and actual production restraint system webbing. Additional webbing samples cut from current production webbing lots may be requested from your Customer Service Representative at any time.
